

Diary Date

The 2017 World Recycling Convention & Exhibition is to be held in Hong Kong (22-24 May). The event will bring together 900+ recycling industry professionals from all over the globe, from traders, processors, consumers and brokers to machinery and equipment suppliers, IT suppliers and consultants. As a great international city and finance hub, Hong Kong is the perfect setting to bring together the growing markets of Asia, with companies that have great experience and expertise in established markets.
