

[Meet the Commissioners](#)

#### **A SMATTERING OF EXCLUSIVE INDUSTRY REACTION:**

“The developer community encourages the Commission to strive to ensure adequate policies for an open and vibrant EU business environment, which will allow digital entrepreneurs to continue to innovate and create opportunities in Europe and beyond. We look forward to sharing our insights into policies that would set up EU developers for global success.” □— Developers Alliance

“Well done Ursula von der Leyen! The new European Commission President-elect has clearly grasped what European Cancer Organisation (ECCO) has argued for some time. European citizens want an EU that connects to what matters to them. By precisely instructing her proposed health commissioner to develop a serious and impactful European Beating Cancer Plan, Commission President-elect von der Leyen is doing something almost every citizen in Europe will be very pleased to hear. Now let’s make sure it is suitably ambitious and hard-hitting!” □— European Cancer Organisation (ECCO)

“The Bureau of International Recycling (BIR), the global federation of recycling industries, congratulates the newly designated commissioners under the leadership of Ursula von der Leyen and welcomes the fact that the European Green Deal is high on their agenda ... BIR would like to stress that the future of the circular economy cannot be built without a strong recycling industry supported by meaningful and efficient public policies. Objectives aiming at climate change mitigation and CO2 emission reduction can only be reached with the help of more recycling and resource efficiency.” □— The Bureau of International Recycling
